## LOCAL AND STATE ITEMS.

We endeavor to make The Caledonian valuable to our friends, and our friends in Caledonia, Essex and Orleans counties will confer a great favor to us and add greatly to the interest of the paper by sending us items in a brief, legal form.

### TO ADVERTISERS.

We have delayed until the present to advance advertising rates, hoping that the pressure of prices, or cost, are to have no influence on the advertiser in this matter. Therefore from time to time for common advertising will be \$1 per line per quarter, therefore, only the *Advertiser* will be \$2 lines of minor type and *Venice*, *Arabian*, *Old English*, and *Script Gothic*, instead of *Old English* and *Script Gothic*. Increases will be advanced one month.

March 18, 1863.

### BRIEFLY LOCATED.

All our citizens are not given to much indulgence in that which doth intoxicate, it is evident, judging from the small attendance at temperance lecture Tuesday evening.

The Rev. Mr. McCloud, of Addison, gave an interesting and instructive, advocating at some length the discussion side of the question, yet noting entirely the advantages to be derived from legal action.

The Boston Courier (in the Phoenix) gives an evocative compliment to Brattleboro by calling it "the corner stone of the Green Mountain State—the *cul de sac* of its business and of its importance." We know Brattleboro's near *out* of the corners, but still of late there has been much mystery about living there. Now, however, as "out does" mean the "bottom of the bag—a difficulty," every body can see what's to do with Brattleboro. By the way, "Brick-bat" of the Phoenix, says he didn't "Shame on him!" Every body saw him do it. *Walton's Daily.*

This is a good suggestion and we will do all we can to effect it. If some one in each such district in the state, will ascertain the amount of maple sugar made in their districts this spring, and forward the same to their local paper, by which means the amount in the state may be ascertained. We shall be very glad to do our part in this matter and other papers throughout the state will no doubt do the same.—*Times.*

ARMY HORSES.

Some thirty-five or forty horses purchased contractors for the army were carried here yesterday. They were the poorest lot of horses that we ever saw on a string, and it is strange on soldiers to palm off such stock them. Time and again we have seen our horses than most of these, tied to the rump of a cavalry regiment.—*Newport News.*

A letter was sent from the depot in this village last week of the same sort. How any one who knows a good horse from a down-in-the-dugout, could accept them we cannot see.

PIRE AT A BIRTH.

Mr. Chester Townsend, of Waterford, has a girl who gave birth to three calves a few days ago. What is a little remarkable the calves were all alive and smart. We think few instances like this can be found on record in the state.

PIRES FOUND.

The bodies of Henry Durgan and Oscar Conant, who were drowned in Cabot last evening, were recovered Thursday morning.

Two remarkably well executed counter-tablets on the Bradford Bank were put in auction at Bording on Saturday night by a dealer who has not since been seen. They were a perfect imitation of the genuine. Seven persons were victimized. Look out for them.

The Manchester Journal is responsible for the statement that the family of Mr. L. Phillips of Winchell was increased on the 1st of April by twin children, twin lambs and four kittens; all doing well.

The body of Charles R. Briggs was found in Dog river, at Northfield, on Tuesday last, under circumstances that indicate murder. He was last seen late on Tuesday night, one of an euchre party at a Northfield grocer, and we learn that the body shows a wound, and that money supposed to be in Mr. B.'s possession is missing.
